WORK EXPERIENCE

France Horizon | EHPAD Hippolyte PANHARD

Executive Assistant

Le Coudray-Montceaux, Île de France

Apr 2023 - Jul 2023

- Optimized workplace well-being for healthcare staff, increasing employee satisfaction and the effective use of rest areas by implementing a comprehensive improvement plan for these spaces.
- Renovated the residents' dining room, enhancing their quality of life through the development and execution of a community space improvement plan, which included new furniture, improved lighting, and decorative enhancements.
- Organized events and projects for residents, fostering social inclusion and quality of life, achieving a 30% increase in participation through cognitive, recreational, and social activities.

PROYECTOS

Explore Your University | "Data Eater" Hackathon

Lider del proyecto | Desarrollador web

Cancún, Quintana Roo

Sep 2024 - Dec 2024

- Implemented the Git Flow workflow, enabling efficient branch management and team collaboration, with measurable improvements in version control and organization.
- Led weekly meetings, facilitating progress tracking, communication, and timely resolution of blockers throughout the project.
- Developed a RESTful API using the NestJS framework, ensuring scalability and maintainability.
- Imported datasets provided by SECOES into the internal database by implementing backend scripts to automate the process.
- Consumed APIs in React using Axios, successfully connecting the frontend with the backend and ensuring seamless data integration.
